# Vision

We want to be the leading provider of innovative and high-quality labelling, printing, and packaging solutions that empower businesses to streamline operations, elevate their brand presence, and achieve optimal results.

# Mission

Vertexx Label Printing strives to be your one-stop shop for all your labelling, printing, and packaging needs. We are dedicated to exceeding your expectations by offering exceptional quality and innovative solutions for labels, stickers, tapes, barcode, and barcode scanners. Through a commitment to continuous improvement and embracing new technology, we aim to optimize efficiency and empower your business to streamline operations and achieve success.

# Goal

Perfect labels and Technology has a futuristic outlook & a vision to satisfy the growing needs of market demands through Products & Data identification Systems Price Marking & Variable Data Feeding Solutions with high-end quality products. Our combination of modern technology, stringent quality control and process expertise and experience will ensure that our customers get a surfeit of choice for all their requirements.

# About Us

At **Vertexx Label Printing**, we're not just another printing company. We're a force of innovation driven by the combined expertise of industry legends. Our story begins with the vision of Mr. Pradnyesh, a pioneer in the field of offset printing with over 20 years of experience. His unwavering dedication to quality and his keen eye for detail are the cornerstones upon which Vertexx is built.

But Vertexx isn't a one-man show. Mr. Jatin, Feas BC Experience in Food Industries in From Last 20 Years and Mr. Vikram, Feas Experience in Designing & Playing in Colors From Last 20 Years each legends in their own right bring a wealth of knowledge and skills to the table. Together, this trio forms an unstoppable team, combining their expertise in various printing and packaging disciplines.

This fusion of experience and fresh perspectives allows Vertexx to not only deliver exceptional printing solutions but also develop cutting-edge packaging strategies. We understand the evolving needs of businesses and the ever-changing landscape of the industry. By staying ahead of the curve and embracing new technologies, we ensure that your brand stands out and your products are packaged for optimal performance.

At Vertexx, we don't just print labels and stickers; we craft solutions that empower your brand to thrive. Our commitment to excellence goes beyond the printing press. We believe in fostering strong partnerships with our clients, taking the time to understand their unique needs and delivering results that exceed expectations.

Choose Vertexx Label Printing and experience the difference that a team of passionate experts can make. Let us help you elevate your brand, streamline your operations, and achieve lasting success.

OUR PRODUCTS  
OUR PRODUCTS

# LABELS TO SERVE VIRTUALLY ANY INDUSTRY

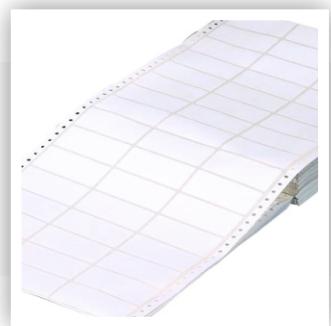

## Barcode Labels

We are ready to meet your labelling needs with a full range of stock blank labels for your barcode printer as well as completely pre-printed labels. With options for a variety of sizes, colors, and material types, we have the perfect match for any application.

## Dot Matrix Labels

These are printable labels for use in dot matrix printers. A computer sprocket punch label is one of the oldest and most tried and tested labels. Popularly used for mailing lists, stock control and any posted parcels and documents.

## Multi Color Labels

Get more value for less with our industrial grade, short run, all digital custom product labels, stickers and decals printing services. By advertising and marketing your products, equipments and services with the self sticking digital printed labels, you get improved quality and lessen the time, effort and investment on printing of custom product labels.

## Liquor / Wine Label

Whether you need labels for plastic containers, plastic bottles, or glass bottles and jars, we have a label solution for you. Our expert staff can recommend label materials, label adhesives, liners, and label varnishes.

# LABELS TO SERVE VIRTUALLY ANY INDUSTRY

## Pharma Labels

Medical tapes and films must be durable, flexible and safe to use in a broad range of conditions & combinations - in some cases, within the human body itself. Our extensive knowledge of materials enables each label to be specifically designed to handle the rigours of a healthcare environment and work in sync with the new technologies of modern healthcare system.

## Tamper Proof Labels

Tamper-indicating options include "void" messages, triangle shapes, or destructible face stocks. Adhesives provide permanent or non-permanent marking on numerous substrates. Common uses for security labels include ID badges, electronics and other product warranty labels, brand protection and much more

## Water Bottle Labels

Our weatherproof material is the most popular since it's durable enough to withstand smudging and peeling when wet. Custom water bottle labels are great for company events, special occasions, weddings, and promotional use

## Food Labels

Our experience in this segment allows us to recommend the appropriate label construction with an effective combination of adhesive, ink & face stock.

Be it self adhesive labels, or non adhesive wrappers, our understanding of this industry has allowed for effective solutions.

# LABELS TO SERVE VIRTUALLY ANY INDUSTRY

## Automotive Labels

A highly technical segment, the auto segment has stringent demands of its labels with provision of technical information being the main label function  
This segment requires labels to withstand extreme environmental conditions as well as contact with hazardous chemicals.

## QC OK Labels

Discover our vast library of quality control and calibration label designs and materials. Tested OK Labels & Stickers QC Passed Labels & Stickers Quality Control Labels & Stickers

## Cosmetic Labels

Brands in the personal care segment focus on the "feel good" factor. This is reflected by the choice of images, colors and materials used in the product labels and packaging. Be it a face wash or a moisturizer, the message to be conveyed to potential customer is of well being

## Caution Labels

Handy Caution Labels can be placed just where your warning is most likely to be heeded. Labels are an effective tool for sending your "caution" message. They are both colourful & concise. Most legends are available in stock and ready to ship right away

# LABELS TO SERVE VIRTUALLY ANY INDUSTRY

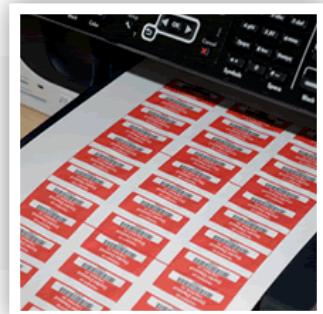

## Promotional Labels

Brand your packages with custom printed Packing Tape. Set your promotional label printing products apart from the competition with our digital printed labels

## Printer Labels

Specializing in laser labels and inkjet labels. all our blank adhesive labels are available in 100 sheet boxes. We have rectangular address labels and round adhesive label stickers available in many sizes

## Speciality Labels

- \* Removable Adhesive Labels
- \* DOME Labels
- \* UL Approved Labels
- \* Tyre Labels
- \* MATT or Gloss Polycarbonate Labels

## Thermal Ribbons

Our ribbons are compatible with all printers on the market, whatever the brand and model. Free thermal transfer ribbon samples are available. Simply contact us for further information.

# LABELS TO SERVE VIRTUALLY ANY INDUSTRY

## Barcode Printer

Automatic Identification & Data Capture (AIDC), automates the process of item identification and transfer of data to the users application software, be it a WMS, ERP or Process Automation

## Barcode Scanner

We have a complete assortment of barcode scanning and barcode Printing products for your business needs.

Our solutions include barcode scanners, barcode label printers, EPOS systems and barcode software and hardware solutions

# PROCESS

## LAMINATION

In this process, a clear film is applied to the label material, giving it a polished appearance. Lamination is mostly done to protect the label, and the label is rendered moisture-resistant and practically tear-proof, thus increasing the life of the label.

## VARNISHING

Varnishing refers to the process of applying a heat-cured clear coating of transparent ink on the surface of a label for protection and for giving it lustrous look. The labels with a varnishing enhancement protect the material and the printing from abrasion, sunlight, chemicals and moisture.

## SERIAL NUMBERING

Labelling with unique serial numbers is required in various industries, such as retail and logistics, as well as for several purposes, such as identifying spare parts and individual units of goods and products.

## BARCODING

Bar coding is a method for easy identification of products or units, using a specific pattern comprising spaces and lines (bars) of varying width. The bar code represents alpha or alphanumeric data in machine readable form. Bar coding makes replication and forgery harder, and is easy to validate.

## HALF TONE EFFECT/GRADIENT EFFECT

This is a process in which fine dots are used to create a variation in which the colour seems to fade from the base colour to a lighter-shaded version of a base colors.

## SECURITY/SPECIALTY INK

We provide our customers with a choice of more than 20 security/specialty inks in different colours and print processes and guide them which ink they should use depending on the level of security, brand protection, and attractiveness.
